**When Chaos Reigns**

A Political Thriller

---

A best-seller on Amazon, this page-turner is a political thriller set in today's international and military environment. Buckle up!

Like an iron fist in a velvet glove, it not-so-gently pounds home relevant constitutional issues and Washington D.C.'s political shenanigans that inevitably occur when chaos reigns.

China, Russia, a powerful drug cartel, and a radical Islamic terrorist group form a secret cabal bent on shocking America and her global influence to its core while taking what they want across the globe. With the U.S. President facing impeachment on multiple counts and focused on

securing a trade agreement with China without Senate approval, his actions put the Reagan Test Site on Kwajalein Atoll at risk and ignite the tinderbox of the South China Sea.

Can the web of corruption and deceit created by enemies, foreign and domestic, be uncovered and destroyed in time to save the United States and Western civilization?

So well documented in present-day fact, "When Chaos Reigns" seems too close to reality to be called fiction.

### **In Praise of *When Chaos Reigns***

*When Chaos Reigns* leaves you with an eerie feeling that what you're reading is not fiction but world events that could and might become a reality. And just like the characters in the story, we cling to the hope that right will prevail even if it is in the stark minority. John Cleveland

Drawing on his experience as commander of US Army Kwajalein Atoll/Kwajalein Missile Range, as a West Point & US Naval War College graduate, Col (Ret). Scott Cottrell provides a fascinating tale of global intrigue and political tensions intertwined with well-researched historical facts in *When Chaos Reigns: A Political Thriller*. With the recent heightened tensions in US-China relations, this book may soon be all too real." Doug Nichol

Scott Cottrell has written a novel of contemporary interest as we see both Chinese forces maneuvering against US forces in the Pacific and Russia wreaking havoc in Europe. Perhaps the work is predictive of what we should expect to see in the near future. Read it to find out! Kenn Riordan

### **Author's Biography**

Scott Cottrell is a retired US Army Colonel. A graduate of the United States Military Academy at West Point, he served for 29+ years in the U.S. Army in various locations worldwide, including as Commander of the US Army Kwajalein Atoll/Kwajalein Missile Range. He is married to Peggy, with two children and eight
